

### **Tyler Befus on the Classic Line**

“If I am fishing dry flies in a small mountain stream, short line nymphing on the Gunnison River or casting damsel flies for sunfish and bass in a farm pond, the RIO Classic gets the job done. The finish is super slick and allows me to make long casts when I need too but also casts easily at short range. The yellow color makes it easy for me to see in all light conditions and the coldwater finish eliminates those nasty line coils even on the coldest days. Just like all RIO fly lines, the Classic has a durable finish that can even hold up to the punishment that an eight year old can put it through! Bottom line, the Classic is a great line for fishing many different situations and is the line I recommend for beginners and kids.”
